🔗 Portfolio

Objective

Detail-oriented Full-Stack Software Engineer with expertise across the entire web stack – from crafting responsive, accessible UIs with React, Next.js, and Tailwind CSS to architecting scalable backends using Node.js, Nest.js, and Express.js. Skilled in designing RESTful APIs, managing SQL and NoSQL databases, and implementing authentication and role-based access control. Applies solid foundations in data structures, OOP, and design patterns to deliver clean, maintainable codebases. Passionate about bridging exceptional user experiences with robust backend systems, and thrives in collaborative teams building impactful, production-ready software.

Professional Experience

3C Coding School

Academic Team Lead

Sep 2024 – present

- Directed a team of instructors by providing continuous mentorship, rigorous performance evaluations, and tailored professional development, resulting in consistently high-quality instruction.
- Designed and implemented comprehensive programming course curricula that adhered to industry standards and academic goals, significantly improving student engagement and learning outcomes.

Web Development Instructor

Feb 2024 – Present

- Taught Frontend and Backend to students of varying age groups and skill levels.
- Designed and delivered engaging, hands-on lessons that improved student accelerated learning outcomes. Most of the students were able to build and deploy their responsive web applications by the end of the course.

Coding Instructor

Jul 2023 – present

- Designed and delivered age-appropriate coding curricula for more than 300 students, significantly improving average assessment scores.
- Conducted interactive workshops that produced over 50 fully functional apps, games, and tools, strengthening students' practical coding abilities.

STEM Entrepreneurship Center

Mar 2025 – Jul 2025

Full Stack Development Intern

During this internship, I gained practical experience across the full stack, including developing interactive user interfaces, building server-side applications and APIs, and efficiently managing data using both SQL and NoSQL databases.

NTI - National Telecommunication Institute

Jul 2025 – Sep 2025

- Mastered Cloud foundations, core AWS services, security, economics, and solutions architecture

- Completed the AWS Academy Cloud Architecting track (Storage, Compute, Database, Networking, Microservices, Serverless)
- Graduated from the Professional Skills Program, enhancing communication, leadership, and problem-solving capabilities

Projects

Tarkeba E-Commerce

Tarkeba is a modular, production-ready e-commerce full-stack built with a domain-driven architecture, featuring secure JWT authentication, RBAC, and OAuth integration. It delivers end-to-end commerce capabilities including product variants, atomic stock management with MongoDB transactions, smart checkout with Paymob integration, coupons, returns, reviews, analytics dashboard, and asynchronous email processing.

Maswada-AI

Maswada AI is a full-stack, AI-powered bilingual note-taking application built with React 19, Node.js, and TypeScript, featuring secure Clerk-based authentication and a production-ready architecture. It integrates Gemini 2.5 to summarize, rewrite, and translate notes (EN/AR), with full internationalization, RTL/LTR support, modern Tailwind UI, robust validation (Zod), and a scalable backend using Express and Sequelize.

Skills

Frontend Development

- HTML
- CSS
- Bootstrap
- Tailwind
- JavaScript (ES6+)
- React
- Next.js

Tools & Technologies:

- Git & GitHub
- Linux (Ubuntu)
- Amazon Web Service (AWS)
- Redis

Backend Development

- Node.js
- Express.js
- TypeScript
- Nest.js
- RESTful APIs

Software Development

Concepts:

- Software Design & Architecture
- Design Patterns
- Data Structures & Algorithms
- OOP

Databases

- MySQL
- PostgreSQL
- MongoDB

Soft Skills

- Attention to Detail
- Presentation Skills
- Communication Skills
- Problem-Solving
- Team Leadership
- Teamwork

Education

Helwan university

Software Engineering

Bachelor of Computer Science in Software Engineering (Expected Graduation: June 2026)

Sep 2022 – present

Cairo, Egypt
